PRESS RELEASE

JESÚS SÁNCHEZ VEIGA JOINS ECOENER TO STRENGTHEN ITS LEGAL ADVICE DEPARTMENT

La Coruña, 20 October 2026.- Ecoener has taken on Jesús Sánchez Veiga to join the company's legal advice department, to further strengthen the team and support its activities and growth in the twelve markets where it operates.

His inclusion takes place in the context of Ecoener's commitment to have the best talent at its disposal and consolidate a corporate structure that can accompany its future development.

Sánchez Veiga's long career in company law includes 25 years at Garrigues, 18 of which were spent in its territorial area in Galicia. During this period, he acquired solid experience in offering legal advice to large companies and family businesses.

Throughout his career he has had articles published in specialist law journals and has participated in group publications on company and tax law. He is also a frequent participant in specialist forums.

Sánchez Veiga was a member of the Governing Board of the Galicia Bar Association for 15 years. He also belonged to the Steering Committee of the University Master's Degree in Advocacy and Procurement, organised by the Coruña Bar Association and Coruña University, where he continues to work as a professor.

He is currently the secretary of the Board of Directors of Nordés Club Empresarial.

A graduate in Law from the University of Santiago de Compostela, he completed his studies with a University Master's Degree in Company Law at the University of Navarra.

About Ecoener

Ecoener is a Spanish multinational that specialises in renewable energies with 38 years' experience in developing projects that seek the best in social and environmental integration and have a positive impact on communities. It uses an industrial focus to control all the phases in its operations, ranging from promotion and design to the construction and management of hydroelectric plants, wind farms and photovoltaic solar plants, along with energy storage projects. It has a presence in twelve countries in Europe and America thanks to projects that are now under operation or being built and its business development offices.
