

## **ECOENER ACHIEVES TOP SCORE IN ITS FIRST CDP ASSESSMENT**

- **Earns an overall B rating in the Climate Change category as part of a private assessment.**

**La Coruña, 5 March 2026.-** Ecoener has obtained the highest score from the Carbon Disclosure Project (CDP), the first time it has taken part in this international environmental reporting and management benchmark. The company was given an overall score of B in the climate change category, which is the maximum attainable for a private evaluation using the CDP methodology.

The evaluation included key factors such as climate change strategy, risk and opportunity management, emissions reduction initiatives, environmental governance and engagement with the value chain. In each of these areas, Ecoener had the highest score possible, demonstrating its solid performance in line with the major international standards, and consolidating its commitment to continuing improvement and the inclusion of ESG criteria in its business model.

### **Global benchmark**

CDP is a non-profit organisation with an annual environmental scoring process that is considered the leading standard worldwide for corporate environmental transparency. Through a rigorous questionnaire, CDP evaluates critical aspects such as greenhouse gas emissions, climate-related risks, and sustainability strategies, enabling investors, companies, and public authorities to measure and manage their environmental impact.

## **About Ecoener**

Ecoener is a Spanish multinational specialising in renewable energy. With 37 years of experience, Ecoener develops projects that seek perfect environmental and social integration, as well as a positive impact on communities. From the industrial point of view, it controls all the stages of the business cycle, from promotion and design to construction and management of hydroelectric power plants, wind farms and solar photovoltaic plants, as well as storage projects. It is present in 12 countries in Europe and America through its projects in operation and under construction and its business development offices.
