

## **ECOENER, AMONG THE COMPANIES WITH THE BEST REPUTATION IN SPAIN**

- **The company enters the country's leading corporate reputation monitor for the first time, ranking 192nd.**
- **It is the first Galician renewable energy company in the ranking.**

**La Coruña, 23 June 2026.-** Ecoener has been recognized as one of the companies with the best reputation in Spain, according to the [Merco Empresas 2026 ranking](#), the country's leading corporate reputation monitor.

The company has been included in this classification for the first time, ranking 192nd overall and becoming the first Galician renewable energy company to be featured in this prestigious assessment.

Within the sector ranking for energy, gas and water, Ecoener reaches seventh place out of a total of ten companies.

This recognition highlights Ecoener's sustained commitment —and that of all the people who are part of the company— to a responsible energy model focused on the development of renewable projects.

With 37 years of experience, Ecoener continues to uphold the same conviction that drove its beginnings, when it integrated its first hydroelectric plants into the Galician landscape: to actively contribute to the energy transition while maintaining absolute respect for the environment and working in collaboration with local communities. This approach is now reflected in the company's adherence to the highest environmental, social and governance standards across all the markets in which it operates.

Merco Empresas is one of the most internationally recognized corporate reputation monitors. Since 2000, it has evaluated companies in Spain using a multi-stakeholder methodology that combines a total of 64,764 surveys, 7 evaluations and 29 sources of information. It is also the world's first audited

monitor, with independent verification. Both its criteria and results are publicly available and can be consulted on its website.

With this recognition, Ecoener reinforces its commitment to sustainability, long-term value creation and the trust of its stakeholders.

## **About Ecoener**

Ecoener is a Spanish multinational specialising in renewable energy. With 37 years of experience, Ecoener develops projects that seek perfect environmental and social integration, as well as a positive impact on communities. From the industrial point of view, it controls all the stages of the business cycle, from promotion and design to construction and management of hydroelectric power plants, wind farms and solar photovoltaic plants, as well as storage projects. It is present in 12 countries in Europe and America through its projects in operation and under construction and its business development offices.
